mares

Seventy wonderful years: driven by passion.

Ludovico Mares was the legend and founder of Mares diving. Ludovico's passion for diving created a spark of enthusiasm that has spread unchanged for 70 years, and generation to generation. For this reason, Mares is a leading company in the world of diving. Technology, quality, reliability and innovation: everything is inspired by passion.

Passionate people allow us to achieve our ambitious goals and to set increasingly innovative objectives. Designing and creating state-of-the-art equipment, being the first to test innovations, and recognizing new things are secrets to our success. Everything we do aims to increase diving enjoyment through superior technology and advanced performance.

Working with passion is a great privilege.

It's time to give back.

As divers ourselves, we love and respect the underwater world, including everything in it. This is a fundamental and core element of our passion; but the seas and oceans ask us to do more. The time has come to act. We have adopted concrete measures to reduce unnecessary plastic in our company, and share the message with employees, collaborators and suppliers. To safeguard what we love most, we must do our part to preserve all bodies of water, especially for those who follow in our footsteps, including future generations. Oceans need to be plastic free.

**This is our commitment,
and why we are part of MISSION DEEP BLUE.**

THE MARES LAB SERVICE TECHNICIAN TRAINING PROGRAM

Mares Service Technician Training Courses are available throughout the world and are designed and developed based on proven effective instructional system design principals. They are the dive industry’s first and only competency based service technician training courses offered worldwide that are produced and conducted by a major dive equipment manufacturer. This means you’ll receive the same high quality and educationally valid training regardless of where in the world you participate in a Mares Service Technician Training Course.

BASIC SERVICE TECHNICIAN DIGITAL LEARNING COURSE

This highly interactive online digital learning course is delivered to the learner using the latest Educational Management System (EMS) technology. The EMS platform technology along with extensive use of video and graphic content enhances learning and retention of information and produces a highly enjoyable educational experience. The course is open to anyone, and can be accessed by contacting the local Mares Subsidiary or Distributor. Take this course as the first step to becoming a fully qualified Mares Service Technician, or if you simply want to learn the basics of regulator design and service and/or repair. This course is a prerequisite requirement for most Mares Lab Skill Based Training Courses. Completion of this course does not qualify you to service or repair Mares equipment.

- The course goals are to:
1. Establish your basic knowledge level relating to regulator service and repair procedures.
 2. Provide you with basic information about regulator design and function.
 3. Provide you with Mares specific information relating to service and repair procedures, manufacturing processes and product information.
 4. Help prepare you for success in one or more Mares Lab Skill Based Training Courses.
- Prerequisite Requirements:**
Course is open to anyone.

MARES LAB SKILL BASED TRAINING COURSES

- MARES SERVICE TECHNICIAN
- MARES DIVING CENTER SERVICE TECHNICIAN
- MARES SPECIALTY SERVICE TECHNICIAN

After successfully completing the Basic Service Technician Digital Learning Course, you are now ready to progress to the skill based training phase of becoming a qualified Mares Service Technician. These courses are conducted by qualified Mares Lab Instructors and consist of comprehensive hands-on training exercises. During these courses you will have the opportunity to perform multiple service procedures on a wide variety of Mares products, including multiple complete regulator service overhauls on various Mares regulators. You’ll also gain valuable experience in using the Mares Service Manual and Spare Parts Catalog during routine and special service procedures. Skill based training courses are designed to:

1. Provide comprehensive, real world, hands-on training about how to service and repair Mares products.
2. Enhance the knowledge gained from the Basic Service Technician Digital Learning Course.
3. Develop skills and abilities to the level required to successfully perform service and repair procedures on Mares products.
4. Prepare you for a successful full or part-time career as a Mares Service Technician.

SEMINARS 2019

• MARES SERVICE TECHNICIAN

This is by far the most popular of the skill based training courses. The all new and redesigned Mares Service Technician Training Course is a comprehensive 2 day training program that trains and qualifies individuals to service and repair Mares products. Topics include disassembly, reassembly and adjustment of in-line Mares regulators, service and repair procedures, troubleshooting, dive computers, Mares warranty, service guidelines and more. More than 12 hours of course time is dedicated to hands-on, skill based training on how to properly disassemble, reassemble and adjust Mares regulators and BC inflator mechanisms. **Successful completion of this course qualifies you to service and/or repair ALL Mares products.**

Prerequisite Requirements:

Completion of the Basic Service Technician Digital Learning Course.
Be currently affiliated with an Authorized Mares Dealer.
Be approved by the affiliated Mares Dealer to attend the course.

• MARES DIVING CENTER SERVICE TECHNICIAN

This course is designed for technicians who plan to work in a Mares Diving Center, such as a resort or diver training facility, that has limited or no retail sale of Mares equipment. Course duration is 1 day and provides skill based training related to the Mares Diving Center product line. Take this course if you plan to work in a Mares Diving Center and are interested in being able to service and repair your affiliated Mares Diving Center owned Mares products. **Successful completion of the Diving Center Service Technician Course qualifies you to service and repair ONLY your affiliated Diving Center OWNED equipment used in rental and/or training programs.**

Prerequisite Requirements:

Completion of the Basic Service Technician Digital Learning Course.
Be affiliated with an Authorized Mares Diving Center.
Be approved by the affiliated Mares Diving Center to attend the course.

• MARES SPECIALTY SERVICE TECHNICIAN

These courses are designed to train technicians to service and repair specific Mares products. Specialty Service Technician Training Course duration is approximately 1 day, depending on the course requirements and the number of products included in the course. **Successful completion of this course qualifies you to service and/or repair ONLY the specific Mares products for which you were trained.** These products will be listed on your qualification certificate. Contact your local Mares Subsidiary or Distributor for additional information on Specialty Service Technician Training Courses available in your area.

Prerequisite Requirements:

This varies according to the specific Specialty Service Technician Training Course requirements.
Authorization by a current Mares Dive Center or Mares Dealer.

• MARES SERVICE TECHNICIAN UPDATE

In order to maintain your Mares Service Technician qualification, you must attend the Annual Renewal Seminar within one (1) year* of completing a Service Technician Training Course or Annual Renewal Seminar. Annual Renewal Seminar is available online and/or as instructor led Update Seminars and are conducted regularly throughout the year, providing you with numerous opportunities to maintain your Mares qualification.

Update Seminar topics typically include new products, new and updated service procedures and a review of current Service Bulletins.
* Within one (1) year is defined as December 31st of the year in which the one year limit is reached.

Prerequisite Requirements:

Currently qualified as a Mares Lab Service Technician.
Qualification date is within the one (1) year update requirement.

THE MARES LAB TRAINING CYCLE®

The Mares Lab Training Cycle is a process that has proven effective in producing what we call “best in class results”. This means that as a qualified Mares Service Technician, you can be confident that you’ve successfully completed the dive industry’s most comprehensive dive equipment service and repair training program available through a dive equipment manufacturer. You can also be proud of the fact that you earned your qualification by demonstrating a “best in class” level of dive equipment service technician skills and abilities. Here’s how the Mares Lab Training Cycle works:

Your Knowledge Development

Your basic dive equipment service and repair knowledge is established during your digital learning course and further enhanced during your skill based training course.

Your Skill Development

Your service and repair skills are enhanced during your skill based training course through a series of hands-on training exercises. Over 90% of the contact hours in these courses are dedicated to skill development.

Your Abilities Confirmed

Your knowledge and skill levels achieved through the Mares Lab training process are objectively evaluated and must meet the minimum core competency requirements in order to be qualified as a Mares Service Technician.

Your Abilities Improved

Your abilities improve over time by gaining additional knowledge and increasing skill levels. This is achieved through experience as a Mares Service Technician, by regular contact and communication with Mares Technical Assistance staff, by receiving periodic product updates and Service Bulletins and by participating in Service Technician Update Seminars.

Product specifications and characteristics listed in this catalogue may be subject to changes by Mares without notice.
